

When Housework Drags
Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, and dizzy headaches, has a hard lot, for the family tasks never let up. Probably it's the result of kidney trouble and not the much-feared "woman's weakness." Strengthen the kidneys with Doan's Kidney Pills. They are as harmless as sugar and are effective and may be used for children with weak kidneys, too.

A Virginia Case
Mrs. Robert Hope, 26 N. Central Ave., Staunton, Va., says: "My back ached constantly and often I was unable to sleep at night. I was in a hospital two months, but didn't improve. My appetite left me and the kidney secretions were unnatural. After trying most everything I knew of without relief, I took Doan's Kidney Pills. Four boxes cured me and the cure has lasted."

Get Doan's at Any Store, 50c a Box
DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., BUFFALO, N. Y.

YAGER'S LINIMENT
For Horse Lameness
Yager's liniment is a stable necessity for sprain, galls, boils, sprain, strained ligaments, swellings, wounds, cuts and swelling.

Best Liniment on the Market
Mr. Bert Martin, Wesley, Pa., writes: "I had a horse go lame from a strain two months ago and tried four different kinds of liniment on him and he did not get much better. I got a bottle of Yager's liniment and he is better all ready. I think it is one of the best liniments on the market."

At all dealers—An eight ounce bottle for 25c. Prepared by GILBERT BROS. & CO., Inc., Baltimore, Md.

And many a toothache is a tooth-ache in disguise.
Piles Relieved by First Application
And cured in 10 to 15 days by GILBERT BROS. & CO. PREPARED BY GILBERT BROS. & CO., Inc., Baltimore, Md.

Three Catholic bishops are serving as privates in the French army.
Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.—Adv.

Too many of the things we wait for are not worth the delay.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any drug store can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair and remove dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

Specializing.

"What is your boy studying at school now?"
"Jedgins," replied Farmer Cortiswell, "from the way he keeps reminding me of expenses, I should say it was mostly arithmetic."

No Change.

"It's a scandal of the way women dress nowadays. Our grandmothers never wore any such immodest garments."
"Perhaps not, but I'd be willing to bet that our grandfathers made just as big a fuss over the things they did wear as you men do about the present styles."

No Such Thing.

John L. Sullivan said in a temperance address in Chicago:
"Too many people are like the London navy. In London, you know, the saloons are only open now an hour in the morning, an hour or so at noon, and another hour in the evening. The navy didn't like this, and he was expressing himself very forcibly about it one night at the Marble Arch, when a stranger said:
"But, friend, the workin' classess need to economize these 'ere war times. Don't you know there's too much money altogether spent on an unnecessary beer?"
"Unnecessary beer?" roared the navy. "Unnecessary beer? Why, there ain't no such thing!"

Often Food Makes or Breaks

It all depends upon the kind. A common cause of lessened vigor of body and mind is improper eating. Food should be selected that will supply sound, well-balanced nourishment for the physical and mental forces, and this is richly supplied by Nature in the field grains.

Grape-Nuts

FOOD
contains all the nutritive elements of whole wheat and malted barley, including the vital mineral salts lacking in many foods that make up the usual dietary. These elements are imperative for building sturdy brain, nerves and muscle.

Grape-Nut is economical, ready to eat direct from the package—pure, crisp and delicious.

"There's a Reason" for Grape-Nuts

Sold by Grocers.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. BELLERS, Acting Director of the Sunday School Course of the Moody Bible Institute of Chicago.) (Copyright, 1915, Western Newspaper Union.)

LESSON FOR JANUARY 30 THE LAME MAN LEAPING.

LESSON TEXT—Acts 2. GOLDEN TEXT—Peter said, "Silver and gold have I none; but what I have that give I thee. In the name of Jesus Christ of Nazareth, walk."—Acts 2:6 R. V.

The coming of power (chapter 2) is soon tested outside of the circle of believers. It is put to a public test, as tried as to its efficacy physically, i. e., has the Holy Spirit power physically as well as over the spirits of men? 1. The Appeal to Peter and John, vv. 1-10. Following Pentecost the disciples seem to have continued their accustomed mode of life. (1) The apostles and worship (v. 1). As yet, and indeed for many years to come, there was no particular separation of Jews and Christians.

Praying men like these two leaders, Peter and John, continued to fulfill their temple duties. The ninth hour was the prayer hour, the hour of sacrifice (Ex. 29:29, 1 Kings 18:36).

All true approach to God must be on the grounds of sacrifice (John 14:6, Heb. 9:22) and we must remember that this hour was the one at which Jesus died for us, our sacrifice (Heb. 10:19, 29).

Emphasize the need and importance of worship and prayer.

(2) The afflicted one (v. 2). This man had been often and made his usual appeal; his expectation was limited to material aid (v. 5); he may or he may not have been familiar with Christ and his teachings, but something unusual was about to happen because the two to whom he appealed really knew God and on them now rested this new power in the world.

(3) The apostle's response (vv. 4, 7). Peter took a good look at the man (v. 4). Peter was changed by a look (Matt. 16:7). What he saw was the man's fundamental spiritual need. (a) Demanding the man's undivided attention, Peter gave the man what he had not—what the man wanted or expected.

Peter's words, "Look on us," and Paul's "be ye followers of me" (1 Cor. 4:16) are in no wise egotistical, but in each case the fearless appeal of a man wholly God's, men conscious of the endowment of power, trying to seize the wavering wills of men that they might point them to Christ.

(b) Peter aroused the man's expectancy. It is usually men lacking in silver and gold who give to the world its greatest blessings and highest good (1 Cor. 4:11).

The appeal to curiosity is a perfectly legitimate one. (c) Peter gave a personal testimony. What he was about to do for the man was not in or of himself.

Every effective Christian worker must base his appeal upon the facts of a personal experience (1 Pet. 4:10, 11). (d) Peter bade the man to do the very thing he (humanly) could not do, but the thing which, "in the name of Jesus Christ" he would be able to do.

The power of that mighty name came into the lame feet the moment he believed (v. 7; cf. v. 16).

Notice how full the account given by Luke, who was a physician. (e) Peter followed the word of testimony and of command by a personal touch (v. 7; see also Mark 1:31).

The personal testimony plus the personal touch, and both "in the name of Jesus," are sure to produce results.

(4) The result. (1) Upon the man. There is no doubt as to the completeness of the cure (v. 8). He had "strength;" was "lifted up" from his former position of weakness; he "leaped" (literally, ecstatic joy); he "walked," continuous activity; and he "worshiped," thanksgiving and renewing of strength. (2) Upon the people. (a) "All the people saw." They may not have heard or comprehended the words of Peter, but they did witness the transformation. (b) "They took knowledge" (v. 10), they began to observe, even as the world always does, the one who professes his faith in Christ? (c) They were filled with "wonder and amazement" (v. 10), they could not understand. No more can the world of today (see 1 Cor. 1:18, 23) really comprehend the Christian. There was no guesswork, however, about this miracle, and, of the people who witnessed it, and were so filled with wonder and amazement, many were converted (ch. 4:4).

The miracle served to get for the gospel a good hearing and it accomplished its purpose (Rom. 1:16).

11. Peter's Appeal to the People, vv. 11-26. Notice it was the man who attracted the crowd, not Peter or John, for he eagerly held the disciples while the crowd gathered (John 5:10, 11). This may suggest the weakness of the man's faith in that he depended upon Peter and John rather than upon Jesus.

(1) Peter seized this opportunity (v. 12) and began his salutation by taking advantage of their curiosity.

Peter eagerly turned their thoughts from himself into Jesus. He wished to divert attention from himself and used the miracle for the double purpose of glorifying Jesus Christ and to convict these men of their sin.

Verses 13, 14, 15 contain the charges, whereof Peter and John were "witnesses." They were not to look upon "us" as though they had done anything, nor was it some new God of whom they witnessed (v. 13). The act of the crucifixion, he grants, may have been consummated in ignorance (v. 17), but since God had raised Jesus from the dead, and this doctrine of the resurrection was new, therefore they ought to repent even though their acts were in accord with prophecy.

Peter appeals to Jewish pride. Is such an appeal legitimate?

READY FOR ATTACK ON SUEZ CANAL

Turkish artillery at Jerusalem ready for the contemplated advance of the Turks and Teutons on the Suez canal and Egypt. A great army has been mobilized at Jerusalem and other points in the Holy Land, and a railway has been constructed from Damascus toward Egypt. The British are preparing to defend the Suez canal, and a great battle is expected.

WAS NOT A LAP PET

Scientist Constructs a Model of the Stegosaurus.

Interesting Creature Weighed About 15,000 Pounds and Roamed the Earth and Scared Folks Some Millions of Years Ago.

Washington.—How happy must have been the lot of the prehistoric man. How fateful the moment when he herded his wife and children in their cave, "barred the door," and sharpened his stone ax to resist the attack of that pretty creature weighing some 15,000 pounds, the stegosaurus, or plated lizard, which, luckily, exists now only in fragments in deep-barrier fossils.

The Smithsonian institution, which takes the deepest delight in fossils, has been studying the stegosaurus and restoring it to its pristine state of several hundred millions of years ago, so that one returning home with an imagination too vivid may see it walking down Pennsylvania avenue.

"Investigations conducted by the section of fossil reptiles of the National museum concerning the giant fossil reptile known as the stegosaurus, or plated lizard, reveal many interesting facts hitherto unestablished definitely," according to a statement issued by the Smithsonian institution.

"It is now known that two rows of great dermal armor plates along the monster's back alternated like cross-cut saw teeth and were not paired; that the largest one was above the base of the tail and not over the hips, as previously supposed; that there were only 18 of these plates; that there were but four sharp spines near the end of its tail, and many other important details relating to the general appearance of this great reptile which lived about eight million years ago and weighed nearly fifteen thousand pounds."

In a recent publication by Dr. Charles W. Gilmore, assistant curator, it is stated that there were reproduced ten pictures of restorations of the stegosaurus as depicted by various authorities between the years 1891 and 1912. They show a variety and are of interest as exhibiting the diverse opinions held regarding its probable appearance in the flesh, and especially as to the arrangement of the skin or dermal armor, which forms such a conspicuous feature of the external anatomy of this curious reptile. In view of this, Mr. Gilmore prepared a model of the stegosaurus one-twelfth of the linear dimensions of the type-specimen now on exhibition in the museum and issued another pamphlet describing it.

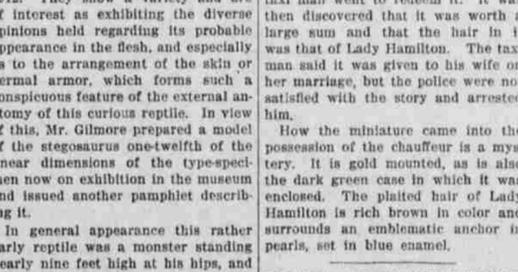

In general appearance this rather early reptile was a monster standing nearly nine feet high at its hips, and about fifteen feet long. He probably was covered with a tough, hornlike hide, re-enforced on the top and sides of its head and neck with bony knobs which were in effect not unlike armor plate, or, at least, rivet heads. Extending from its small, lizardlike head along its back and well toward its hind legs, were great sharp-edged plates arranged alternately in a double row. Its legs and feet were similar to those of the alligators and crocodiles of our age, but the forelegs were much smaller and weaker than the hind ones, due to its heritage from some ancestor who walked on its hind legs. It seems to have possessed very little brain, and it may have been for this reason that it was so well protected by armor.

Mr. Gilmore's ideas concerning this animal's appearance, especially in regard to the alternate arrangement of its back plates, have been found to agree with those expressed by Dr. F. A. Lucas of the American Museum of Natural History. Each arrived at his conclusions independently of the other.

The new model shows the head of the stegosaurus lowered considerably, as if he were in the act of feeding on the ground, where he is known to have secured his food, being a plant eater, to judge from his teeth, and incapable of reaching lofty and elevated herbage. In this position he presents a curious appearance, not unlike a rough section from a circular saw, for his back from head to tail curves downward in each direction from his hips.

At this time the character of the skin covering of this animal is wholly conjectural, but from what is known of the skin of some of the members of the horned and duck-billed dinosaurs it is not unreasonable to believe that the stegosaurus' hide was scalelike, with numerous bony knobs or

BEAUTY FROM PAN-AMERICA

The second Pan-American Scientific congress brought to Washington many of the noted beauties of the South American republics. The one in the picture is Mme. Victor de Maurtua, wife of the delegate from Peru.

WHICH FOWL GOT JEWEL?

One of Mrs. Herzog's Gobbled a \$150 Ring She Dropped From Her Finger.

Watts, Cal.—Mrs. Charles Herzog raises turkeys for the market. One morning, while feeding her 30 fowls, a diamond ring valued at \$150 slipped from her finger and bounded toward the turkeys.

The ring alighted in a pile of food which had been thrown to the fowls and when Mrs. Herzog made a search the ring could not be found.

An employee of Mrs. Herzog sold the turkeys an hour later to a peddler without the knowledge of the lady. Mrs. Herzog is wondering if one of the ten turkeys or one of the remaining 20 gobbled up her diamond ring.

Pure food law advocates in Japan recently discovered that much rice was adulterated with quartz sand to increase its weight.

MAKING WAR MAPS

Only Officers of Special Training Assigned to Work.

Every Object in Territory Covered Must Be Shown With Accuracy—Maps of Vast Importance in Modern Warfare.

Berlin.—In modern warfare, and especially in the present world conflict, accurate maps are the greatest auxiliary of the armies and they play a far more important part in the operations than the general public knows. Without them success is impossible.

These maps are worked out with infinite care by special departments of the general staffs of the armies of the different countries. Only officers possessing special training and knowledge are assigned to the work.

The first military topographical bureau was established by the general staff of the Bavarian army nearly a century ago under the direction of General von Naus, who also became famous as a mathematician and daring mountain climber. Other countries, however, were slow to follow the example of Bavaria. In Prussia an exact topographical survey of the country was not undertaken by the general staff until 1862. About the same time the leaders of the Austro-Hungarian army became convinced that the maps then in existence were not sufficient for war. The Austrian topographical bureau was organized in 1863 under the direction of Capt. Julius von Payer, who later became famous as an Arctic explorer. France waited still longer, and as a result was badly handicapped in the war of 1870-71 by the lack of accurate maps. In that war it is said the French officers were supplied with maps of Germany but none of France.

During the last forty years all countries are using the same system in the production of the general staff maps. The method seems complicated, but is simple enough. First the country is divided into triangles, the corners of which are marked by church steeples, high poles, trees and other landmarks. Every one of these triangles then is surveyed separately and again divided up into smaller triangles. The corners of these subdivisions are marked by small square granite blocks, which are sunk into the ground so that only their tops are visible.

After the subdivisions have been laid out and marked the officers entrusted with the work draw large maps of every one of them. These maps show the minutest details of the landscape and are then joined together and reproduced on a smaller scale by expert draftsmen. In this manner an exact topographical picture of the larger triangles, and finally of the whole country, is obtained.

The general staff maps speak a language of their own. This language is very simple, but must, of course, be understood. Every object in the territory covered by the maps is shown by certain signs. Pine woods are marked by little sharp cones, other woods and trees by groups of small circles and dots, elevations by curves which show the heights of the hills, roads by double and footpaths by single lines.

There are also certain signs for church steeples, mills, ponds, brooks and isolated farm houses. Nothing is missing and a man looking at one of these maps and understanding it has the impression of flying over the territory and looking down upon it from a height.

All maps of the general staff have to be absolutely correct. They not only form the basis for movements of troops, but also have to be used by the artillery in ascertaining the distance and finding the range of the positions of the enemy. In this respect the German maps have become world famous, as they are drawn with the proverbial German thoroughness.

Each map of the general staff has to be absolutely correct. They not only form the basis for movements of troops, but also have to be used by the artillery in ascertaining the distance and finding the range of the positions of the enemy. In this respect the German maps have become world famous, as they are drawn with the proverbial German thoroughness.

NELSON RELIC LONG IN PAWN

\$5,000 Miniature Found on Taxi Driver—Possession a Mystery to the Police.

London.—The London police are trying to trace the ownership of a superbly executed miniature of Lord Nelson, with plaitings of Lady Hamilton's hair, valued at more than \$5,000, found on a taxi chauffeur charged with being in unlawful possession of property supposed to have been stolen.

The Nelson relic had been in pawn for \$5 since September, 1912, and the taxi man went to redeem it. It was then discovered that it was worth a large sum and that the hair in it was that of Lady Hamilton. The taxi man said it was given to his wife on her marriage, but the police were not satisfied with the story and arrested him.

How the miniature came into the possession of the chauffeur is a mystery. It is gold mounted, as is also the dark green case in which it was enclosed. The plaited hair of Lady Hamilton is rich brown in color and surrounds an emblematic anchor in pearls, set in blue enamel.

DEER IS GIVEN AUTO RIDE

After Sojourn With Cattle Deputy Game Wardens Decide to Give Animal a Change.

Altoona, Pa.—Shoppers in the business section stopped and stared at a live deer out on an automobile ride through the city. It was the buck that had been living with the cattle of Frank Weyandt's farm in Frankstown township for some time.

Deputy game wardens captured it, bound its legs and, placing it in the car, hauled it to another section of the county to be turned loose.

CEGELKA RECEIVES IT FROM A STRANGE MAN, AND IS ROBBED AFTER SMOKING IT.

Muncie, Ind.—The most expensive cigar that Joseph Cegelka, a Muncie Romanian, ever smoked, cost him exactly \$450, according to his story as related to the police.

A man giving his name as John Adams was the cause. The two met at the boarding house of Mrs. Martha Jones. According to Mrs. Jones the men were in the same room in her house for an hour or more.

Finally Adams left the house alone. Eventually Cegelka reported to the police that he had been robbed of \$450 after having smoked a cigar given him by this Adams. The police believe the cigar was "doped."

SEE NEW LIGHT ON SATURN.

Flagstaff, Ariz.—Recent observations of Saturn at the Lowell observatory show a remarkable change. It was announced, in the color and brightness of the planet itself, which is now of a pinkish brown tint and strikingly darker than its rings.

Comparisons of the stellar magnitude of the planet with Capella, Procyon and Mars also show that its brightness is less than had been predicted.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Expensive. "I'm thinking of spending the winter at Palm Beach."

"Believe me, old man, if you go there you'll spend more than the winter."

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Dr. J. C. Watson*.

Children Cry for Fletcher's Castoria. California's mining properties last year numbered 658, of which 277 are gold mines.

Russian petroleum producers are experiencing much inconvenience from a scarcity of steel wire rope.

THE NEWEST REMEDY FOR BACKACHE, RHEUMATISM AND DROPSY

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body.

There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints it causes lumbago, rheumatism, gout or sciatica. This is the time to send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for large trial package of "Anuric."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. If you wish to know your condition send a sample of your water to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and describe symptoms. It will be examined without any expense to you, and Dr. Pierce or his medical staff will inform you truthfully. Anuric is now for sale by dealers in 50c pkgs.

Now They Don't Speak. "He says he can read much in my face."

"Between the lines, I suppose," suggested the other girl.

WHY SUFFER SKIN TROUBLES

When a Postcard Will Bring Free Samples of Cuticura?

Which give quick relief for all itching, burning, disfiguring skin troubles. Bathe with the Cuticura Soap and hot water. Dry and apply Cuticura Ointment to the affected part. They stop itching instantly and point to speedy healing often when all else fails.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Send everywhere.—Adv.

Much Like One. Mrs. Benham—I brought down the house.

Benham—You talk like a cyclone.

DO YOU NEED A KIDNEY REMEDY?

Dr. Kilmer's Swamp-Root is not recommended for everything, but if you have kidney, liver or bladder trouble, it may be found just the remedy you need. Swamp-Root makes kidneys quickly because its mild and immediate effect is soon realized in most cases. It is a gentle healing, herbal compound—a physician's prescription, which has proved its great curative value in thousands of the most distressing cases according to reliable testimony.

All druggists in 50c and \$1.00 sizes. You may have a sample size bottle of this always reliable preparation by returning a postcard, telling about it, to Address Dr. Kilmer & Co., Birmingham, N. Y., and enclose ten cents, also mention this paper.—Adv.

Love is a dream; marriage is an alarm clock.

GOLD BREEZES CAUSE SNEEZES

and warn you that you are taking cold. Don't let it settle in your head or throat. Drive it out with Hale's Honey of Horehound and Tar. Cures head and throat and relieves coughs and hoarseness. All druggists, 25c, a bottle.

WE PAY CASH FOR MEDICINAL ROOTS, HERBS, LEAVES, BARKS, ETC.

We buy over two hundred different kinds of Medicinal Roots, Herbs, Leaves, Barks, Seeds, Flowers, Etc., for which we pay net cash on arrival. We make a specialty of Ginseng, Golden Seal Root, Seneca Snake Root, Star Root, Star GRASS Root, Beezox, Etc. We pay top cash prices.

If you want to line up with a progressive, growing, honest, up-to-date concern who will handle your goods right, who will keep you well posted on market conditions, write us for our price list, shipping tags, and full information.

PREPAREDNESS!

To Fortify The System Against Grip when Grip is prevalent. LAXATIVE BROMO QUININE should be taken, as this combination of Quinine with other ingredients destroys germs, acts as a Tonic and Laxative and thus keeps the system in condition to withstand Cold, Grip and Influenza. There is only one "BROMO QUININE." E. W. GROVE'S signature on box. 45c.

The best-fed army in the world is the American, while the Japs eat the least and the Russians the most.

Probably nothing dispels girlish illusions so quickly as marriage.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not want it. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Later after letters come to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.
